

Justice Index Score for States

National Center *for*
Access to Justice

The Justice Index is an online resource that relies on findings, indicators, indexing and other data-analytics tools to help ensure that a person's ability to protect and vindicate her rights in a state justice system does not depend on whether she can afford a lawyer, speak and understand English, or navigate the legal system without an accommodation due to a physical or mental disability.

The Justice Index scores and ranks the 50 states, District of Columbia, and Puerto Rico on their adoption of selected best practices for ensuring access to justice, creating incentives for state officials. Click on the following for their findings: [Justice Findings](#)
